WASHINGTON UNIVERSITY LAW LIBRARY

6 0048 8014 9

This directory of the 2400 living alumni of the Washington University School of Law is dedicated to Hiram H. Lesar, dean of the school from 1960 to 1972, with affection, respect and gratitude for his leadership during twelve brimming years of growth. It is published at a time critically important in the history of this school and of the law itself, a fitting time to pause and reflect on the accomplishments and associations of our alumni.

Your law school has expanded dramatically in the ten years since our last directory catalogued your activities and locations. The law school is now an institution of national scope and significance with a magnificent new building, a fine faculty and the largest, ablest and most varied student body in its 106-year history. We are reminded in preparing this directory how much depends on the interlocking relationships, cemented by dependence and respect, between the bar and the bench, the student and the scholar, and between the public and all of us charged with shepherding justice.

We hope you will find this directory informative. It has been designed with your use in mind. We also hope you will visit your law school when you can. You will find it a place of excitement and ideas where the law is taught very well and where its meaning and potential are constantly being tested and expanded. You will find it, I believe, a place worthy of your pride.

A handwritten signature in dark ink, appearing to read "Edward T. Foote". The signature is fluid and cursive, with a large, stylized "F" and "T".

Edward T. Foote  
Dean

### How to Use this Directory

The directory is composed of three sections.

The first section lists all alumni alphabetically. The listing includes name, year of graduation from the School of Law, and place of residence.

The last section lists alumni by class. Each listing includes name, and place of residence.

For complete information please refer to the geographical section. This section lists alumni under state of residence and, in most cases, either city or county headings. Each listing includes present name followed by name at graduation of women graduates, year of graduation, and business address. If no business address was available the home address was used.
